-- WHAT IS CLAIMED: --

IN THE CLAIMS:

Please delete claims 1-18 in their entirety, prior to calculation of the filing fee, and please add new claims 19-38, as follows:

a 19. A method of incorporating fibriform smoke-modifying material in a smoking material rod, the method comprising:
feeding fibriform smoke-modifying material longitudinally to a rod-making machine along a longitudinal feed path in said machine, said feed path being in a travel direction of a smoking material deposition run of a suction band of said machine;
causing said feed path of said fibriform smoke-modifying material to ascend toward said deposition run under the influence of the suction force until, at a predetermined distance along said deposition run, said fibriform material becomes supported and is subsequently maintained at a
